Codeforces | LeetCode

EDUCATION

GLA University, Mathura 2023 – 2027
B.Tech in Computer Science and Engineering (AI, ML, IoT)
CGPA: 8.37 / 10

COURSEWORK / SKILLS

- Data Structures & Algorithms Network Security Artificial Intelligence Web Development
Database Management Systems (DBMS) Operating Systems OOPS Concept Android Development

PROJECTS

CampusSkillX | *MERN, ML, REST APIs* 2025
Interactive platform that empowers students to explore, develop, and showcase their skills. Features alumni connections, hackathon and LeetCode insights, and gamified profile system.

FaceLyze – Face and Gesture Emotion Detection System | *Python, OpenCV, TensorFlow, Deep Learning* 2024
AI-powered system that detects human emotions and gestures in real time. Recognizes facial expressions and body language to infer user emotions for adaptive applications.

CVision – Resume Scanner and Job Match Score Analyzer | *Python, NLP, Streamlit, Scikit-learn* 2025
Extracts candidate data from resumes and job descriptions, calculates a match score, and provides improvement suggestions using AI-powered text analysis.

Claimyzer – Insurance Claim and Policy Analyzer (Bajaj Hackathon) | *Python, FastAPI, Transformers, PostgreSQL* 2025
NLP-based project analyzing user claims and insurance policy coverage to detect fraud or mismatch. Built for Bajaj Hackathon as an intelligent claim evaluation assistant.

Heartio – Stress Analysis and Relief System | *Python, Hugging Face, Generative AI, FastAPI, IoT* 2024
GenAI-based wellness app detecting stress from wearable and behavioral data and recommending personalized relief through videos, storytelling, and chatbots.

INTERNSHIP / EXPERIENCE

Intern, Innovative Bharat Feb 2024
Worked on data-centric tasks and participated in solution building.

Intern, Prodigy Infotech
Focused on analytics using Excel and project-based learning.

Participant, Smart India Hackathon (SIH)
Hands-on project experience in first year of engineering.

TECHNICAL SKILLS

- Languages:** Java, Python, JavaScript
- Frameworks:** React.js, Node.js, Express.js, FastAPI
- Databases:** MySQL, MongoDB
- Technologies:** Machine Learning, Deep Learning, Generative AI
- Tools & Platforms:** Git/GitHub, Eclipse, VSCode, Jupyter Notebook, Google Colab, Power BI

EXTRACURRICULAR

Participated in national-level hackathons including **Amazon ML Challenge 2025**, **IIT Kanpur Hackathon**, and **Walmart Hackathon**.

CERTIFICATIONS & ACHIEVEMENTS

- Python, Machine Learning, Data Analytics, Power BI, Generative AI, MongoDB, React.js, Web Development, Java, SQL, Microsoft AI Classroom.
- Solved 500+ LeetCode Questions — Codeforces Rating: 700+
